Edited course related HTML and CSS to comply to 508 standards

Utility Programming

Creation of multiple windows utility programs to speed up and improve working with the 508 conversion.

2012 Multimedia Developer

SOFTWARE SKILLS

Experiences using software in multiple projects categories, ranging from business cards to broadcast productions.

1995-2011 Paint programs & Image Processing Programs: (Adobe CS5 and others)

Effective Use of programs to create, enhance or manipulate bitmap images and photos. These skills are applied in almost all types of projects.

1995-2011 3D modeling and animation: (including Lightwave, Sketchup, Blender, Maya, AutoCAD)

Invested many years developing skills in building and animating 3D models for video, web, print and interactive projects. Projects ranging from simple 3D logos to virtual walkthroughs of the Cox Centers new lobby, conference center and Building 3001 at Tinker AFB.

2002-2011 Animated vectored web graphics: (including Adobe Flash, Auto Script 2 & 3, Adobe CS5)

Developed vector based animations, interactive displays and programs, for educational or promotional projects to be used on-line or in stand alone systems.

1995-2011 Motion Graphics (Including Adobe CS5, Aura, TV Paint)

Produced motion graphics for majority of projects. Ranging from simple on-screen titles to fully animated visual circus of illustrations and effects.

1995-2011 Video editing Software. (Including Avid , Newtek Toaster, Speed Edit, Premier, Adobe CS5)

Edited video footage and graphics together for broadcast and non-broadcast video production on a many editing systems/software. Video editing skills ties together all of the other skills for many projects.

2005-2011 3D Camera Matching (including Syntheyes)

Using special software to match the movements of a virtual 3D camera up with the movements of a real world handheld or mounted camera. This software is used to add computer generated buildings or other objects to video. Applied this process extensively while placing an animated 3D motor-home named “HarVee the RV” onto the customers real world RV Lot for a series of TV commercials.

Other production programs.**1990-2011 Desktop publishing**

Early career experience was with a desktop publishing program. Since have used many different publishing programs over the years to create booklets, flyers, newsletters, and other print layouts.

2001-2011 Web Programming: Html, Css, Php, Dreamweaver,

Hand coded and edited web pages with a number of programs. See “Web Design” below.

1999-2001 Adobe Authorware

Extensively used Authorware to create the new interactive interface for FAA training DVDs. Previous employer loaned me to the FAA center in OKC for six months to transform training material from laser disks. Authorware is a sophisticated program to create multimedia rich educational and training materials for use both on-line or as stand-alone programs.

1995-2011 MS Office.

Although not strictly considered graphics programs, familiar with the basic MS Office suite of programs and other similar programs.

Web Design:

Started developing web design skills nearly 10 years ago. Has spent considerable time exploring the internet.

2003-2011 Enhancing Business identity with web design:

Designed matching websites, video presentations, literature, posters, tickets and other print items, to help enhance client’s business or organizations public image.

2003-2011 Website programming: (including Aptana, notepad++, Dreamweaver)

Have experience in HTML & CSS. Looking forward to see what all HTML 5 and CSS3 will bring.

2005-2011 ActionScript 2 & 3:

Have developed various types of Flash projects utilizing ActionScript, including games, interactive demonstrations, web pages and web apps.

2007-2011 Joomla and Wordpress:

Extensive use of Joomla and Wordpress to create websites in the past few years.

Print:

After high school, began doing layout work for a print shop. This experience steered me to the life of a Graphic Artist.

Design concepts for packaging and advertising items including...

Numerous DVD/CD packaging.

Business flyers, brochures, business cards, post cards.

Posters, billboards and outdoor signs.

Product documentation.

A Few Clients I have work for.

Advanced Academics, John Harcourt (Failure Analysis), OKC Chamber, Oklahoma Redhawks, Tom Colbert, Home Creations, The Abernathy Agency, Kidnetik, Mick Cornett, FAA, Oklahoma National Guard, Cox Cable, Tinker AFB, Welch Creations, Emtec, Oklahoma Department of Corrections, The Children's Center, Baptist General Convention of Oklahoma, Council Roads Baptist Church, Dave's RV, Southwestern Bell and several Oklahoma churches.

RELEVANT WORK HISTORY

1995-2001	TVR Productions Inc, Oklahoma City	2D & 3D Graphics Manager.
2001	On loan to the FAA Center (from TVR)	Working with Interactive training.
2002-2011	Freelance, Oklahoma City	Full-time freelancer - 2D & 3D Animator, Print Graphics, Video Editing, Video Production, and Web Design.
2011	Advance Academics (Contractor)	508 Web Project

Above freelance work was continuation of employment at TVR Production. In Oct 2002, the sole owner of TVR Productions died. I was able to acquire the video equipment and then proceeded to continue working with the same clients independently.

EDUCATION

2 years of Votec during high school (4 hours a day)	Commercial Printing
Bakersfield College, Bakersfield CA.	AutoCAD, Drafting, Art 101
Frances Tuttle Votec, Oklahoma City OK	Video Production, Networking

The Internet ...Have spent many hours each week searching for new information and learning about new and old software. Have taken numerous tutorials and courses related to all areas of computers and computer graphics. Many of these were taught by top professionals in their respective field of work. In this ever-changing world of multimedia and graphic technology, the internet has proven to be a great tool for sharpening needed skills for real-world production.

I am always looking for opportunities to further my education in all the above areas.
